

HARDIK SHALI

Full Stack Engineer | Berlin, Germany | Available Immediately

+49 15739438462 | hardikshali1612@gmail.com | linkedin.com/in/hardikshali | github.com/HardikPShali

PROFILE

Full Stack Engineer specialised in building high-performance React and TypeScript applications for production environments. Proven track record of improving application performance by up to 40% and delivering scalable frontend systems used by 10,000+ users. Strong focus on clean architecture, performance optimisation, and user-centric design. Experienced in owning features end-to-end from development to deployment. Seeking Frontend or Full-Stack roles in Germany.

TECH STACK

Programming Languages: Python, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, PostgreSQL, MongoDB

Data & Analysis: Python (Pandas, NumPy), GraphQL

State Management: Redux Toolkit

UI Engineering: Responsive Design, Accessibility (WCAG), Cross-Browser Compatibility

Tools: Git, GitHub, GitLab, CI/CD, Jest, Jira, Agile/Scrum

Languages: English (C1), German (A2 – actively improving)

PROFESSIONAL EXPERIENCE

Implementation Consultant

Apr 2023 – Sep 2023

ThoughtSpark, India

- Delivered scalable solutions for complex workflow-driven systems, improving usability across multiple user journeys.
- Translated business requirements into robust technical implementations aligned with system and user needs.
- Collaborated closely with cross-functional stakeholders to optimise workflows and reduce operational friction.
- Improved process efficiency through continuous analysis and system optimisation.

Software Engineer (Frontend)

Apr 2022 – Apr 2023

Accubits Technologies Inc., India

- Built and maintained frontend applications used by 10,000+ users, ensuring high performance and reliability.
- Reduced application load time by up to 40% using lazy loading, code splitting, and rendering optimisation techniques.
- Designed and implemented reusable component architecture, significantly improving development speed and maintainability.
- Took ownership of frontend modules from implementation to optimisation and production deployment.
- Improved overall user experience by reducing latency and ensuring smooth UI interactions across critical workflows.
- Integrated REST APIs to ensure stable data flow and predictable application behaviour.
- Delivered responsive, accessible user interfaces aligned with modern UX and performance standards.

Software Developer Intern

Dec 2021 – Apr 2022

Accubits Technologies Inc., India

- Developed reusable UI components, improving consistency and development efficiency.
- Supported API integration and frontend-backend communication in Agile development environments.

PROJECTS

FutureGrail – Digital Asset Marketplace

futuregrail.com | github.com/HardikPShali/FutureGrail

- Built and shipped frontend features for a live digital asset marketplace used by real users in production.
- Developed high-performance modules handling large datasets and real-time user interactions.
- Improved rendering performance and reduced load times through lazy loading and optimised component architecture.
- Designed scalable and reusable UI systems, improving development speed and consistency.
- **Tech:** React, Next.js, TypeScript, Tailwind CSS

HealthierU – Healthcare Management Platform

github.com/HardikPShali/HealthierU_React

- Built workflow-driven user interfaces, improving complex multi-step user interactions.
- Implemented reliable frontend-backend communication, ensuring consistent data handling.
- Improved application responsiveness and stability, reducing UI inconsistencies across devices and enhancing user experience.
- **Tech:** React, TypeScript, Material UI, Firebase

EDUCATION

M.Sc. Data Science

2024 – 2025

IU International University of Applied Sciences, Berlin

Grade: 1.9

M.Sc. Information Technology

2020 – 2022

Veer Narmad South Gujarat University, India

B.Sc. Information Technology

2017 – 2020

Veer Narmad South Gujarat University, India
