

HARDIK SHALI

Frontend-Focused Full Stack Engineer | React | TypeScript | Next.js | Berlin, Germany
[+49 15739438462](tel:+4915739438462) | hardikshali1612@gmail.com | [linkedin.com/in/hardikshali](https://www.linkedin.com/in/hardikshali) | github.com/HardikPShali | [portfolio](#)

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Engineer based in Berlin with production experience building React, Next.js and TypeScript applications for real users. Improved application load time by up to 40%, built reusable component systems, integrated REST APIs and delivered responsive, accessible interfaces used by 10,000+ users. Strong fit for Frontend Developer, React Developer and Full Stack Developer roles requiring performance optimization, clean architecture, API integration and end-to-end feature ownership.

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Material UI, Redux Toolkit, React Hooks, Context API, Component Architecture, Reusable UI Systems, Responsive Design

Backend and APIs: Node.js, Express.js, REST APIs, GraphQL, API Integration, Authentication Flows, Firebase, MySQL, PostgreSQL, MongoDB

Testing and Quality: Jest, Unit Testing, Debugging, Performance Optimization, Lazy Loading, Code Splitting, Core Web Vitals, Accessibility WCAG, Cross-Browser Compatibility, SEO Fundamentals

Tools and Workflow: Git, GitHub, GitLab, CI/CD, npm, Browser DevTools, Jira, Agile/Scrum, Python, Pandas, NumPy

Languages: English C1, German A2 - actively improving

PROFESSIONAL EXPERIENCE

Relocation & Transition to Germany | Sep 2023 - Apr 2024

- Relocated from India to Berlin for Master's studies (visa processing period).
- Continued frontend development and technical upskilling during transition.

Implementation Consultant | ThoughtSpark, India | Apr 2023 - Sep 2023

- Delivered scalable workflow-driven solutions by translating business requirements into reliable technical implementations.
- Improved usability across multi-step user journeys by analyzing operational friction and simplifying system workflows.
- Collaborated with cross-functional stakeholders to align product needs, implementation constraints and user outcomes.

Software Engineer - Frontend | Accubits Technologies Inc., India | Apr 2022 - Apr 2023

- Built and maintained React-based frontend applications used by 10,000+ users in production environments.
- Reduced application load time by up to 40% using lazy loading, code splitting, rendering optimization and component-level performance improvements.
- Designed reusable component architecture that improved development speed, UI consistency and long-term maintainability.
- Owned frontend modules from implementation through optimization and production deployment, including API integration and UI state handling.
- Delivered responsive, accessible and cross-browser user interfaces aligned with modern UX and performance standards.

Software Developer Intern | Accubits Technologies Inc., India | Dec 2021 - Apr 2022

- Developed reusable UI components that improved interface consistency and accelerated feature delivery.
- Supported frontend-backend communication, REST API integration and Agile development workflows.

SELECTED PROJECTS

FutureGrail - Digital Asset Marketplace | futuregrail.com | github.com/HardikPShali/FutureGrail

Tech: React, Next.js, TypeScript, Tailwind CSS

- Built frontend features for a live digital asset marketplace used by real users in production.
- Developed high-performance modules for large datasets and real-time user interactions.
- Improved rendering performance and reduced load times through lazy loading and optimized component architecture.

HealthierU - Healthcare Management Platform | github.com/HardikPShali/HealthierU_React

Tech: React, TypeScript, Material UI, Firebase

- Built workflow-driven user interfaces for complex multi-step healthcare interactions.
- Improved application responsiveness and stability across devices through reliable frontend-backend communication.

EDUCATION

M.Sc. Data Science | IU International University of Applied Sciences, Berlin | Apr 2024 – Jul 2025

- Strengthened analytical thinking, data-driven decision making, and system design perspective
- Completed thesis (Apr 2025 – Jul 2025) on AI based content recommendation systems
- Grade: 1.9

M.Sc. Information Technology | Veer Narmad South Gujarat University, India | Oct 2020 – Jul 2022

B.Sc. Information Technology | Veer Narmad South Gujarat University, India | Jul 2017 – Sep 2020

ADDITIONAL INFORMATION

Valid German residence permit with full-time work authorization
