

HARDIK SHALI

Frontend Engineer | TypeScript, UI Architecture and Web Performance

Berlin, Germany | +49 15739438462 | hardikshali1612@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Frontend Engineer who works across UI architecture, API integration, testing, accessibility, and performance. Turns rough product requirements into clear, reliable interfaces and traces issues across the frontend and REST API. Built applications used by 10,000+ users and reduced application load time by 40% through focused performance work.

TECHNICAL SKILLS

Frontend Engineering: TypeScript, JavaScript ES6+, React.js, Next.js, HTML5, CSS3, Redux Toolkit, React Hooks

UI Architecture: component architecture, design systems, Storybook, Web Components, Tailwind CSS, Material UI, SCSS

Quality and Performance: Jest, Vitest, React Testing Library, accessibility, WCAG, Core Web Vitals, lazy loading, code splitting

APIs and Delivery: REST APIs, Firebase, Agora SDK, Vite, Webpack, Git, GitHub, GitLab, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Implementation Consultant | ThoughtSpark | India | Apr 2023 - Sep 2023

- Translated business requirements into working product-data processes by configuring data models, workflows, and business rules in Syndigo/Riversand.
- Made long configuration journeys easier to complete by redesigning multi-step planning and product-data interfaces.
- Kept delivery realistic by aligning engineering limits, business needs, and timelines directly with stakeholders.

Software Engineer, Frontend | Accubits Technologies Inc. | India | Apr 2022 - Apr 2023

- Delivered React and TypeScript applications to 10,000+ users by building API-connected features on a microservices and REST backend.
- Reduced application load time by 40% by applying lazy loading, code splitting, and render-level performance improvements.
- Shortened later feature work and improved UI consistency by building a shared component library and design system with Storybook.
- Reduced release risk by adding Jest and React Testing Library coverage and taking features from specification through CI/CD deployment.

Software Developer Intern | Accubits Technologies Inc. | India | Dec 2021 - Apr 2022

- Helped the team build features faster by adding reusable React components to its shared Storybook library.
- Completed frontend-backend flows by connecting user interfaces to REST APIs and handling returned data.
- Supported reliable team delivery by using Git, following existing component patterns, and contributing within Agile sprints.

SELECTED PROJECTS

FutureGrail | Digital Asset Marketplace | [Website](#) | [GitHub](#)

- Built responsive marketplace and dashboard views with React, Next.js, TypeScript, and Tailwind CSS and connected them to REST APIs.
- Kept marketplace data updates consistent by managing client state with Redux Toolkit.
- Improved load behavior across devices by using reusable components and lazy loading.

HealthierU | Healthcare Management Platform | [GitHub](#)

- Built multi-step healthcare workflows with React, TypeScript, Material UI, and Firebase for responsive use across devices.
- Improved form reliability by handling frontend state, validation, and backend communication across the workflow.
- Enabled patient-provider video sessions by integrating real-time consultations with Agora SDK.

EDUCATION

M.Sc. Data Science | IU International University of Applied Sciences, Berlin | Apr 2024 - Jul 2025

Thesis: AI-based content recommendation systems | Grade: 1.9

M.Sc. Information Technology | Veer Narmad South Gujarat University, India | Oct 2020 - Jul 2022

B.Sc. Information Technology | Veer Narmad South Gujarat University, India | Jul 2017 - Sep 2020
